

Our Services

- Contract Manufacturing of PCB Assemblies for
 - Auto Insertion
 - SMT
- In-circuit Test Capabilities
- Functional Test Capabilities
- Burn-in Test Capabilities with temperature and power cycling to Customers requirements
- Worldwide Component sourcing
- Inhouse component forming & insertion
- Fabricated Wiring (Harness)
- Electro Mechanical Assembly
- Engineering support for Process & Product improvement

Plant

- Spread over 12,000 sq. ft.
- Temperature Controlled
- ESD Protection
- State of art technology
- Dedicated, Qualified, Trained & motivated skilled labour
- Proximity to international airport 20 Kms

**YOUR PARTNERS IN
EXCELLENCE**

Quality Control

- In-coming, In-process and outgoing QC
- Use of International Standards IPC
- Use of Statistical Process Control
- Right First Time Concept
- Functional Testing
- Failure Mode Effect Analysis

Total Concept

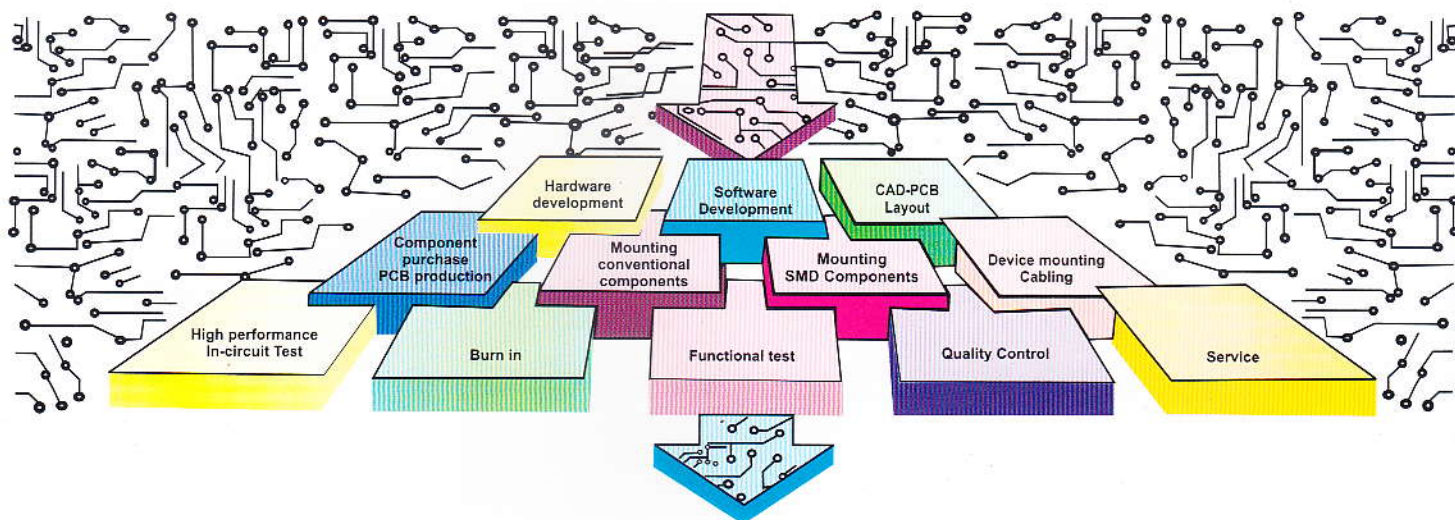

- Making all the component purchases and mounting, testing and assembling to end product

Benefits

- Consistency in Quality
- Timely deliveries

SPECIALIZED ELECTRONIC SUBCONTRACTOR

Customer Specification / Partlist

Introduction

Vemco offers cost-effective turnkey operations for electronic assemblies to the highest quality and workmanship standards covering engineering, procurement, assembling, testing and final assembly.

It brings to the fore specialized Electronic Sub-Contracting Services for PCB Assemblies covering all volumes from small to large to meet surging customer demands of quality and timely deliveries. At the leading edge of technology, it represents synthesis of latest design, development, production & test facilities and a skilled work force.

Just in time delivery

- ❶ **COMPLETE TURNKEY SOLUTIONS FOR THE ELECTRONIC INDUSTRY**
- ❷ **SINGLE SOURCE FOR PRINTED CIRCUIT ASSEMBLIES & OEM ELECTRONIC PRODUCTS**
- ❸ **QUALITY AS ONLY A WORLD LEADER CAN GUARANTEE.**
- ❹ **COST EFFECTIVE MANUFACTURING FOR YOUR MOST DEMANDING NEEDS**
- ❺ **A COMPANY THAT CARES.**

Salient Features

- ❶ Wave soldering with Dual wave Contour results in top of quality soldering with zero defect.
- ❷ Auto Insertion- Thru Hole Components
- ❸ Fine pitch placement capabilities
- ❹ In Circuit Tester with Boundary Scan and Vector capabilities ensures that each and every component is within the specifications and that the final assembly is free from any manufacturing defects.
- ❺ Potting & Coating
